

We've cut the cord but kept the power, all in the palm of your hand.

The model 718 is our battery powered version of the Model 700. Its powerful 18 volt motor lets you tackle clogs in small household lines 1¼" to 2" in diameter. The Model 718 works with ¼" or ⅝" cable in lengths up to 35' with drop head or open-hook ends. Small household clogs won't stop you with the 718 in hand.
